The experience and expertise Casey Makela has acquired through 15 years of making soaps is readily apparent in her book, *Milk-Based Soaps*. She is the owner of Killmaster Soap & Woolen Works, a gift shop and direct mail business. Besides raising dairy goats, Casey has written articles for various animal husbandry periodicals. She resides in Harrisville, Michigan, with her husband and

seven children.

This was one of the first books I read on soap making, it is very good and covers the basics well with a lot of good info for doing soap without a big investment in equipment.

Very nice quality paper, interesting and informative history of milk and soap making, extremely helpful directions and explanations that leave you feeling informed instead of ignorant, step-by-step instructions all the way from making the molds, to a safe work environment, to the finished product. Very diverse selection of recipes, something for everyone to choose from. My favorite is the lavender lace soap!

Nice book and very educational

easy instructions

I thought it would have a few more recipies in it but its a start will have to give the milk soaps a try I thought I was getting a diffrent book but again this is a start

I had high expectations for this little pamphlet and I was let down. It's not a bad little bit of information but some of the ingredients are so far beyond what a normal person can get ahold of that it's kinda useless. They do include a few recipes for us normal folks with normal grocery stores but on the whole I am rather disappointed. Again- I admit to having high expectations for this booklet.

I purchased this book because of the reputation of any Storey's book being awesome! I was not disappointed! In fact, the recipe I use to currently make soap is included in the book!

My grandmother used to make lye soap (back in the early 1900's) and I always wondered how to make it. This book is gives very inciteful information and directions. The pics of the 'molds' is also very useful.
