Teach Your Baby French [With Teaching Guide] (French Edition)

Synopsis

The Teach Your Baby series of audio language CDs is specifically developed for babies age three and younger. Stimulate your baby's neural pathways by playing the CD with your baby and saying the words out loud. You will also help the baby attach meaning to the words by following the teaching tips provided. Each of these words and phrases was carefully selected to have meaning to a baby or toddler. For instance, you will not find days of the week or months of the year since they are abstract concepts a young child cannot grasp.

Customer Reviews

I was looking for a CD with simple pronunciation of French vocabulary and I found it. I do not speak French, but my 5 year-old is learning French. I want to make sure that we are practicing the proper pronunciation. This CD has a woman who pronounces basic words in French, like numbers, body parts, etc. The words are said by themselves so that you can focus on their pronunciation.
