In 27 Days (Blink)

Synopsis

Hadley Jamison is shocked when she hears that her classmate, Archer Morales, has committed suicide. She didn't know the quiet, reserved guy very well, but that doesn't stop her from feeling there was something she could have done to help him. Hoping to find some sense of closure, Hadley attends Archer's funeral. There, Hadley is approached by a man who calls himself Death and offers her a deal. If Hadley accepts, she will be sent back 27 days in time to prevent Archer from killing himself. But when Hadley agrees to Death's terms and goes back to right the past, she quickly learns her mission is harder than she ever could have known. Hadley soon discovers Archer's reasons for being alone, and Archer realizes that having someone to confide in isn't as bad as he'd always thought. But when a series of dangerous accidents starts pushing them apart, Hadley must decide whether she is ready to risk everything—including her life—to keep Archer safe. From award-winning Wattpad author Alison Gervais (Honor In The Rain) comes *In 27 Days*, a story of redemption, first love, and the strength it takes to change the future. *In 27 Days* features a striking cover with embossing.

Customer Reviews

After reading only a few chapters of this gripping story, it's clear why this novel was originally a Wattpad sensation! Compelling characters and several creative plot twists make this tale

truly unputdownable. Readers will embrace Hadley and Archer (as well as Archer's family) and their unusual yet endearing friendship. Tucked away between the wry humor and vivid NYC setting is a powerful look at grief and at the difference that even one person can make in another's life. Hadley Jamison knows Archer Morales as an aloof loner, but she also remembers him as the guy who made her blush in freshman English. She is stunned when she learns Archer committed suicide, and she attends his funeral, wishing there was more she could have done. At the funeral, a man introduces himself as Death and offers Hadley a strange deal: If she goes back in time 27 days, she has the chance to stop Archer from taking his own life. She accepts but has no idea how much her own life will change in the process. (Romantic Times) When Hadley Jamison finds out a fellow classmate, Archer Morales, committed suicide, she can't help but feel she could have stopped him. Then at the funeral she runs into Death who has a proposition for her. She has 27 days to stop Archer from killing himself. Hadley goes back in time and is determined to stop Archer. Problem is he wants nothing to do with her and pushes her away. Hadley must decide to put everything on the line if she has any hope of saving Archer but she has to hurry as time is ticking down. What worked: This is an addictive, fast-paced read where Death makes a proposition for Hadley to go back in time to stop a classmate from killing himself. I got swept up in the drama as Hadley goes out of her way to befriend Archer. Hadley is one of those stereotypical 'rich' NYC girls while Archer's family owes a coffee house. They're different in so many ways, yet also alike. While Hadley's parents are rich successful business people, she's often left alone in their apartment. Her quest to save Archer pushes her to step outside her comfort zone. The strength of this story has to be how Hadley goes out of her way to get to Archer. There's a lot behind his standoffish behavior. As Hadley gets closer, secrets come out about what might have behind Archer's deadly decision. I liked Hadley's determination and spunk even when Archer goes out of his way to let her know he's not interested. Another huge plus has to be how the author breaks down the stereotypes behind what a suicidal person looks and acts like. Archer has a large loving family but also a terrible secret. Hadley refuses to ignore his rudeness at first as she tries hard to reach out to him. A twist on Groundhog's Day meets Death, this paranormal tale will have readers turning the pages to see if Hadley stops Archer from making a tragic mistake. (YA Books Central)

Watty Award-winning author Alison Gervais has been writing for as long as she can remember. In 2011, she began posting her work on Wattpad.com and has been active on the site ever since. If she's not writing, she can be found re-reading Harry Potter, watching Supernatural, or trying to win

the affection of her two cats, Kovu and Rocket.

In 27 Days follows Hadley Jamison as she meets Death after a classmate commits suicide. Death offers her a deal to send her back in time 27 days to save his life - but little does Hadley know that messing with the past isn't as easy as Death makes it seem. Now she must decide if she's willing to risk everything - even her life - to keep Archer safe. First of all, I adore the romance in this book. It's subtle and believable, and Archer Morales is now one of my #1 all-time book boyfriends. He's this glorious mix of sarcastic and grumpy and awkward and swoonworthy ... (sigh) Hadley is also a very realistic heroine, in that she has doubts and fears and generally doesn't know how to handle everything after her deal with Death. Which, honestly, is how I'd probably be in her shoes. AND I love the twists and turns throughout the book: events don't always turn out the way you expect, and it's awesome to see how the characters react to different (and unusual) stimuli. Plus, this book has one of the HOTTEST almost-kiss scenes I've ever read. *fans herself* Talk about romantic tension! Highly recommended for fans of YA contemporary, especially those who want just a dollop of paranormal thrown in. :)

I really liked this book. It was a quick read, but I never felt like I had to skip through parts to make it through. I wouldn't have minded if it had been a bit longer to explore the characters a little more. Loved the characters-- who wouldn't want to have dinner with Archer's family? A hint of romance, but not unrealistic or over the top, which was refreshing.

Imaginative and creative plot. Found some of the dialogue a bit naive and unrealistic. Main character a little too goody two shoes. Great read for teenagers. Although I went into it with really high expectations, I was a bit disappointed. Overall a good read for the right audience. I think reviews were a bit over-fluffed.

Great story. Fast paced page turner. I was drawn in from the first page and couldn't put it down. The characters are well developed and memorable. Very unique story. I look forward to reading many more of Alison's books

So I originally read this book last year on Wattpad and adored it so much that I had to preorder it when the author announced that she was publishing it. This book is super amazing, a whole rollercoaster of feels and emotions. I hope there will be a movie on this- and if there is, I'll be at the

front row of the theater, with a bucket of popcorn!!

This book was so captivating I read it in 2 days, and let's just say that for me, that's something else. I usually stick to fantasy and science fiction, but even though time travel and a meeting with Death was incorporated into the story, this felt like a drama. I absolutely love the storyline. This is definitely a must read.

Thoroughly enjoyed reading this thought provoking book by Alison Gervais. Alison is a young writer who is able to captivate her audience through her writing. This book would be great for families to share and discuss since it touches on a subject that should be discussed openly.

I remember reading this book on Wattpad when I was a sophomore in High school. I'm currently a junior in college and this book still gets me every time. Buy this book. Cherish it. Share it to anyone who gives you the time of day. This books deserves so much more recognition.
