Customer Reviews

If you are planning on visiting but don't know where to go then this Belgrade travel guide is

the perfect starting point. Belgrade is a great weekend break, with tons of interesting sights and attractions, splendid architecture, a fast-paced nightlife, great and affordable shopping, as well as a thriving cultural scene. This guide is here to help you with that decision by giving you accurate information so you'll know exactly where to start your journey.

Be warned, this is a "summary" book and contains very little information. In the few pages the book has, the print is large font, making the information even more sparse. I waited till I visited Belgrade to write this review so I will say that whatever little information is contained in the book is accurate, but this is not a guide book in the true sense. It also has absolutely no maps, making it impractical as a guide book.

Remarkable travel guidebook because it will give you a lot of good ideas on how you can enjoy your travel in this country, good read and definitely worth buying...

I typically do not write book reviews. I bought this book on December 21, 2016. In my opinion this book is a rip-off by the scam artists who call themselves "Project Nomad". The book is a brochure of 44 pages in a very large print, about 150 words per page. The content is poorly researched. It can be easily beaten by a simple google search. The book has no pictures and has a lot of misprints. On page 40 the authors write "Where to stay in Belgrade" however on line sixteen of the same page they conclude "In all honesty the best prices in Kiev are at Airbnb" leaving me wondering is that a book about Kiev or about Belgrade. On page 42 things are getting even more interesting as the book talks about Bucharest. You get the idea. After I got this "Project Nomad" brochure for 12.99, I went to a bookstore and bought "DK Eyewitness Travel Guide: Serbia", which is well edited, full of information, has a large section on Belgrade and has a usual high DK quality.

Don't waste your money. The font is extremely large and the helpful information is totally lacking. \$13.00 for 39 pages hardly seems worth while.
