Roger Tory Peterson, one of the world's greatest naturalists, received every major award for ornithology, natural science, and conservation as well as numerous honorary degrees, medals, and citations, including the Presidential Medal of Freedom. The Peterson Identification System has been called the greatest invention since binoculars. These editions include updated material by Michael O'Brien, Paul Lehman, Bill Thompson III, Michael DiGiorgio, Larry Rosche, and Jeffrey A. Gordon.

It's got a lot of info but not too many colored pictures, most are done in pencil sketches and so hard to know if you are getting the right one, might be better if the color photos were with the descriptions instead the pictures all in the middle of the book.

This book is pretty good, however it could have better pictures.

Great book. loads of information.

I like it

Great little guide. Glad I bought it

Like it!

Exactly like description

I LOVE this Book. It has a clear reference of the different Mushrooms. It comes with beautiful pictures. They really help you distinguish between the different mushrooms. What are safe to eat and what aren't. when i first received the book there were defective pages, but after getting on line with and disclosing my grief they quickly resolved my issue and replaced my book. I have full confidence in buying my products from
