ISBN-13: 978-0866514767

Product Dimensions: 11 x 8.5 x 0.7 inches

Shipping Weight: 1.8 pounds

Average Customer Review: 4.2 out of 5 stars 7 customer reviews

Best Sellers Rank: #429,359 in Books (See Top 100 in Books) #86 in [Books > Medical Books > Medicine > Internal Medicine > Pathology > Diseases > AIDS & HIV](#) #14884 in [Books > Textbooks > Education](#) #27061 in [Books > Education & Teaching > Schools & Teaching](#)

## Customer Reviews

Be careful in choosing this book, some of the language is definitely dated and the term "mentally retarded" is used in each provided lesson. If you are able to understand that this term is used in the technical sense as appropriate to 1984 and look at the information offered this can be a very handy book. There are 50+ lessons presented and each one has accommodations described for 7 different impairments and ability levels. There is also a section with photographs for sign language prompts, another describing how to adapt materials and tools for use by students and yet another to describe how to manage classroom and field trips for best learning impact. Be ready to apply a modern translation but worth a closer look

Of all the books I ever had to buy for a college class, this is the one that has been the most useful and that I have referred back to the most over the years. I have been out of college for ten years, and actually had to RE-buy this book as I lent it out and never got it back. I needed it back in my life. If you teach special needs children at all, this book is immensely helpful. It has accommodations for a variety of different needs, from emotional needs to gifted learners. Many high quality lesson ideas with variations depending on your student population. It is an excellent resource.

"The Special Artist's Handbook" was one of the first books that I purchased when I first became an Art Teacher. I love it! Fantastic ideas---super tall sandwiches, Wayne Thiebaud ice cream cones, bubble gum machines, silhouette landscapes, to name a few---plus lots of different art materials---painting, printmaking, clay, weaving, and watercolor. And each lesson includes a list of materials, teacher prep, and step-by-step student directions. Plus---and this is the best part---each lesson comes with directions and tips on how to teach that lesson to students with special needs! A must-have book for every Art Teacher.

The special needs include: gifted, developmentally disabled and physically handicapped approaches for aspiring artists. If the book is reprinted I would like to see color images included.

It's as described. Has very out-of-date terminology for intellectually developmentally disabled individuals.

awesome

The adaptations for each project are full of great ideas. The author is very knowledgeable about students with special needs and art projects.
