Customer Reviews

This unique workbook provides step-by-step procedures for completing an agency-based research study. Extremely user friendly, it includes concrete instruction and a fully annotated sample literature review with spaces for students to respond.

As described

I chose this rating because the book looks like it will have a lot of good information in my plight in pursuing being a professional socialworker.

This was a requirement for a class and it did not do much for expanding on topics that we were already "learning" from the primary book. If you don't need this, don't get it. Read your syllabus and see if you even need the pages from here, if not do not waste the money.

Was not helpful at all, just waste of money
