Customer Reviews

I'm a big fan of the Lonely Planet series of books and maps - but the maps run the gamut of good to bad (see my reviews on Paris and London). This map was a very helpful tool in getting around Brussels with the very handy LP walking tour. Given a long weekend and this map and the matching LP book, you can cover Brussels fairly well.

For a general map this is a very resourceful map. But for more detailed streets and more tram details this map could of definitely used. After traveling in brussels for a week, there are at least hundreds of streets this map needed to display. There were too many times my partner and I got lost. I find the Lonely planet series to be extremely helpful overall, and would look forward to the new edition of this map to be more descriptive.
