Mark Cotta Vaz is the author of over twenty-one books, including four New York Times bestsellers. His recent works include Twilight: The Complete Illustrated Movie Companion, Mythic Vision: The

Making of Eragon, The Spirit: The Movie Visual Companion, and the biography Living Dangerously: The Adventures of Merian C. Cooper, Creator of King Kong, which was a Los Angeles Times bestseller.

This Illustrated Companion for Eclipse is really nice and give's you an in depth look at the making of the film along with beautifully detailed photographs to go along with it. It is identical to the first two Illustrated Companions but if you really liked them (as I did) I recommend you getting this book. This is a must for Twilight fans!!

Like all of Cotta Vaz' Twilight movie series companions this book is filled with beautiful color photographs taken during the production of Eclipse and has the usual large amount of text about the movie including cast and crew reminiscences. The biggest difference is the cast interview pages in which some of the main cast tell something about their experiences, worth reading. If you don't have it- get it.

loved it

Love to read the behind the scenes tid-bits. How they set something up, if they had a hard time with a particular setup or shot. Actor/actress feelings about their character. Just awesome. the photos are amazing. And you always get a few shots that we cut from the movie and makes you wonder.....awww Why'd they cut that, but you still get to see these amazing shots. If your a big fan its cool to have this Illustrated books to check out every aspect of your obsession.

Xavier Samuel: best vampire ever.

Daughter loves this.

All of these Companions are beautiful. Well worth it. They are thick, glossy paper with beautiful pictures and lots of behind the scenes information. Any Twihard, collector or not would enjoy these. Unfortunately there is not one for Breaking Dawn Pt 2.

The Twilight Eclipse Movie Companion is very informative as to how the movie was made and the special effects that were used. Also contains still pictures from the movie. I am planning to buy all of

them for the Twilight movies because it is interesting to me as to how these movies were made.
