I'm a 2d year dental student and this was a good summary about buying with actual examples and

numbers. It gives a basic framework of comparison for hygiene production, overhead etc. Best 1\$ I spent today (and it's a 1 day read).Thanks David!

I have been a dentist for over 30 years and I'm at the point in my career to evaluate my practice for future sale . This book has been a great tool to help me evaluate my practice and to improve certain areas to attract potential buyers . It helped me understand the areas a younger dentist has to consider in order to evaluate a practice . To the point and easy to read .
