Synopsis

The bright and insightful guide to birthday colors is back with an all-new cover inspired by the iconic Pantone color system. Discover every vibrant aspect of your personality with Colorstrology, a fascinating blend of astrology, numerology, and color theory that offers exciting new insights about our lives and relationships. Written by renowned astrologer Michele Bernhardt using the numbers and color schemes of Pantone, Inc., the global authority on color, the system features 366 “birthday colors” that illustrate who we are and how we behave. Using Colorstrology, you’ll quickly understand how to enhance your best personality traits with your birthday color. This full-color book features detailed profiles of everyone you know, plus 366 perforated swatches so you can take your birthday color wherever you go.

Michele Bernhardt is a respected healer, astrologer, and metaphysician who has worked

extensively with the healing aspects of color and sound. She has contributed to many national publications, including Travel+Leisure, Fitness, Seventeen, and the Miami Herald. She lives in New York City.

Book is well-produced, with matte finish pages and is a compact book. However, once I looked up a couple of birth dates, and looked at the colors, I was basically done with it. Interesting premise, but really doesn't have a lot of repeat reference.

I've used this book for years, it's very accurate. I run a bed and breakfast and have 100's of people come through and it's always delightful to see how connected they are to their color. My favorite thing to ask before is what is your favorite color or they are normally wearing it lol. 99% of the time they pick their color. It's a fantastic book, highly recommend.

What a fun little book! My grandkids enjoy looking everyone in the family up and reading all about them! Very accurate in the descriptions of traits and personalities for everyone's Special Day. It lives on the coffee table and is quite the conversation starter :)

fantastic and interesting gift for my boyfriend who likes to use it to build characters for writing

I've studied astrology for years. This isn't really like astrology. It's about numerology and colors. It's interesting and could be very spot on in describing a person based on the date they were born on and if a particular color is appealing to them and if that color calms them. There are also three words for each birthdate to describe that person's personality.

Interesting book. Fun read.

Fun to look people up

This book is a fun concept but is more of a one-time party use type book. Once you've read your Pantone colorstrology, there isn't much use for the book.
