Get What's Yours: The Secrets To Maxing Out Your Social Security | An Executive Summary And Analysis

Synopsis

Ready Reads summary and analysis of *Get What's Yours: The Secrets to Maxing Out Your Social Security* by Laurence J. Kotlikoff, Philip Moeller, and Paul Solman About *Get What's Yours*: What you don't know can hurt you. In *Get What's Yours*, authors Kotlikoff, Moeller, and Solman teach you the secrets to maximizing the benefits you can collect from social security, navigating the complicated maze that is the social security system, and earning thousands more per year with a few expert tips. There are plenty of personal finance books that touch on the subject of social security, but there are none that address it as thoroughly and expertly as *Get What's Yours*. You've paid into the system your entire working life. Now it's time to get what's yours. About Ready Reads summaries: We at Ready Reads know that knowledge is power and time is precious. That's why we are dedicated to providing quick, to-the-point summaries and analyses of your favorite books, highlighting the most important takeaways and action steps and leaving out the fluff. We bring you the best review material on the market, concise and thorough. Please note that this summary is not the original book and is meant to be heard as a supplement to the original.

Customer Reviews

Given that the file-and-suspend and file-and-restrict options will soon be disappearing, don't waste your money on this book. Also, I thought this was rather verbose for what probably could have been summarized in a page or two (I only read a quarter of the book then saw the headline that the new budget agreement is eliminating the file-and-suspend and file-and-restrict options - so didn't bother

to finish).

Because the stupid title is so long I did not realize that this is a summary of the book and not the actual book. There is ABSOLUTELY ZERO useful information in this "book". I do not even know what the point of it is. There are several other kindle books that are also summaries. Yes, I realize it was inexpensive but there are other very good books that successful advisers have written and put out there to benefit people at a very low or no price so I figured this was similar. Also there were a lot of 5 star reviews saying this was useful. I don't know if they thought they were reviewing the book, I can't believe this is useful to anyone. VERY DISAPPOINTED! I don't write reviews very often but I am so mad right now that I fell for this. It doesn't look like the actual book is available for kindle either. Though I don't know if I would buy it, it sounds like the usual stuff about working past age 70 to get more per month. That is also what my CPA says which is a joke if you lose your job in this economy when you are in your 60s. Sure, where am I supposed to get a good job?

The worst. Useless. The sentences are not put together properly and some words are just ridiculous. Was this dictated and never proof read? I bought it as a supplement to the book but save yourself! Don't buy it!

There was almost no information of value contained in it. I did, however, point out that you would get the information you wanted if you bought the book.

The title is confusing and somewhat misleading since this isn't the actual book but is a brief -- and pretty poorly done -- summary of the book. Got the book in hard copy and it's very good. But this thing -- a waste!!

Seems to be a little out of date, and not the product but a dollar-ninety-nine of table of contents. All of which says very little for my reading comprehension, because they say exactly that in the description. I thought it was a bargain.

DO NOT BUY THIS BOOK. You could get better information from an USA Today article. This must be a knockoff. I can't believe any serious authors would let their name be put on this piece of crap.

Don't waste your money on this. Poorly written, numerous confusing errors, and it tells you nothing

you don't already know. I feel really dumb for wasting \$2.99 on this.
