Customer Reviews

I purchased this book expecting for my child to be able to use it for a virtual class she's taking. She needed to do an assignment from page 118 to 127 just now and discovered that pages 105 through 136 are completely missing from the book. I took pictures to show that they are actually missing and I receive the book in this condition. Terribly disappointed

Book was missing 25 pages. Unfortunately that included the pages I needed for one of the experiments in my class.

Not what I wanted.
