## Customer Reviews

First off, the book itself was in perfect condition and arrived quickly. I purchased from during a sale so I'm pretty happy with the price as well. If you are a fan already don't hesitate to buy it, a beautiful book and thrilling continuation to the story. If you are new to the series you should grab volume one or buy the trades. It's really an amazing modern space opera.

The series is still going strong one of my favourite graphic novel series if you like reading comic books you have to read this series it has really good story with really good art and the Hardcover editions are amazing

Saga quickly became my favorite comic series and I'm excited to finally have my hands on the second book. Fiona Staples is a terrific illustrator!

If you loved book one then this is just as fantastic. If you didn't read book one then why are you here?

Love Saga. I think the series flagged a bit in its second half, but I'm staying along for the ride. I want to see the end

Everything about this series is fantastic, including all of the issues included in this volume.

So amazingly fun! I'm not that into comic books but this one really drew me in.

Can not wait until book three.
