## Customer Reviews

LIBBY ROMERO was a journalist and a teacher before becoming an author. She's written 24 books in Benchmark Education's English Explorers series and as well as teacher's guides, interactive whiteboards, and a variety of other materials for publishers including National Geographic's Explorer magazines and the Smithsonian Institution's TweenTribune.

I wish we had just waited for the print book. The book was great. DO NOT get the Kindle version. The print was too small and most of the time it wouldn't enlarge. It was very hard on a young and an old reader's eyes!

great for younger kids 10-13 for a introduction to an amazing mind

Are appropriate. My kids enjoyed reading it and answering questions.

Fantastic reader for my 8 year old son.

Kids love it
