Yamaha Band Student: B-Flat Clarinet, Book 1 (Yamaha Band Method)

Synopsis

Yamaha Band Student will appeal to teachers looking for a well-paced lesson sequence that keeps students motivated to continue past the first critical year. It is affordably priced, attractively presented and meets the needs of today's students and educators. Each level includes numerous songs, duets, trios and four full-band arrangements right in the method itself---perfect for first-year concerts.

Customer Reviews

I took a star off because the Kindle edition isn't available on my computer (Windows) so I could only use it on my phone (I don't currently have a Kindle). Otherwise it's a great starter book for learning the clarinet. I always use Yamaha band series when I'm learning a new instrument and they definitely didn't disappoint this time.

I first started playing on this book and now that it's been 7 years since I played clarinet regularly and 3 years since I played an instrument at all, this will be a perfect way to get back in the groove. The shipping on this was incredible, I ordered it three days after a different item and got it three days before the other item arrived.

Excellent product is a very useful learning tool for the starter student

I've been without playing clarinet since in 2000, but this book helps me with the music notes. Is it good to remember how to play it again.

Way too simple

I see a lot of negative comments posted by purchasers and band instructors! We bought this instrument for my stepdaughter as her mother refused to buy one. This instrument is not only beautiful but it works! The teachers and students at her school are always offering compliments and praise our daughter on her green clarinet as it expresses her individuality. Kids should be allowed to express themselves, that's probably why they joined band, they're expressing their love for music! Great product! Will definitely be buying another one in the near future!
