Customer Reviews

This is a great story. I loved hearing the read along CD - it brought the story to life. This book / story is a great tool to talk to children about emotions and their feelings. I personally thought the storyline was a bit advanced for my preschooler but he actually got into it and this is now one of his favorite stories. He has been able to identify his own strong emotions, which is the first step to get tantrums under control..

My 3.5 year olds LOVE this book. They really enjoy the movie, but they love putting the CD on and taking turns showing each other the pictures and following along in this book. They almost have it memorized by now, and we've only had it for two weeks.

Good book but definitely for 2nd grader and up only because the story was longer than I expected and some of the words were challenging for my 1st grader but he was able to read the whole thing.

Grandson really loved this book and cd, big favorite.

Daughter loves them!

Great product thank you

Great story and comes with a cd!

Great book and CD for the car! It follows the movie and includes the original character voices. It runs about 15 minutes long.
