Sure wish I could have gotten this on my Kindle. My eyes are getting to old to read this small print and I really want to read this, most interesting book!!

I am enjoying this book immensely! Every once in a while a book comes along that is perfect and this one is it.

This is a great book. Must buy if you like the Shulgins.

Book was a lot more philosophical than I expected, fantastic read. Honestly Shulgin is such a great man.

This is book that deserves attention. The Shulgin's display a great love of exploration, friendship, wisdom and knowledge. In a society growing increasingly repressive and moving away from our great democratic principles. The courage to write this is a demonstration of great commitment to

personal freedom.

Love this book; even though, it's language is fairly complicated.

5 star

Great book!
