## Synopsis

From the eye of a world-class sailor through the lens of a world-class photographer, this grand-scale book takes the reader on a voyage around the world, capturing the joy, excitement, and serenity of sailing. As a professional sailor, Onne van der Wal has skippered boats of many kinds, raced yachts in every climate, and crossed the Atlantic more than ten times. When Olympus Cameras gave him a camera to document his Dutch team's Whitbread Round the World Race in 1981, he discovered his second passion: photography. Over a lifetime devoted to sailing, van der Wal has accrued an unparalleled archive of the most evocative and beautiful photography of the pursuit in all its varied forms, from classic yacht racing around Newport, R.I., to beautiful schooners drifting outside St. Tropez, and from peaceful catamaran expeditions through the silent Antarctic to intense Grand Prix races around the coast of Australia. No other photographer has the experience to shoot so well on board a speeding yacht or the confidence to scale a mast for the right panoramic view; and no other sailor has captured the extremes of the excitement, competition, peace, and mystery the sport affords. This lavishly illustrated volume "with nearly 200 color photographs and several gatefolds of glorious panoramic images" is a celebration of the nautical lifestyle and a love letter to a pursuit that is so much more than a pastime for all those lucky enough to enjoy it.

appreciate the size of the book and the breadth of the photos. It allows you to gaze as long as you

want and let the photos do the talking. While you probably don't want to carry this book with you just anywhere, because of its sheer size, that ultimately means its purpose will be fulfilled. When you're at home, away from the water and waves, you'll be able to open this book up and let the photos tell a story. They have a lot to say.

And he loved it so much. How could you not - the photos are STUNNING. The colors are so vivid and engaging. There is a huge number of photos - some are one page - some are a two-page spread - some pages fold out into three. If you love sailing or know someone who does, this is a great coffee table book for them. We live on the Great Lakes and sadly are unable to sail half the year - looking through this book makes you remember why you love it. The book is sectioned into various regions and there is a great index in the back telling you about the particular boats and

where the photos were taken.HIGHLY recommend. This book's a stunner.

This was a perfect gift for a special friend - beautiful full page pictures from all over the world - each area has a section. It is totally pictures except for a small introduction. Would buy it again!

Definitely worth the price! This was a gift and I was a little reserved about paying 60+ bucks on a book but it's quality.

This is a beautiful book that makes a brilliant coffee table book and is something that a true sailing enthusiast can enjoy for years to come. This book much larger than anticipated, weighing in at around seven pounds! A much appreciated gift for a true seaman

Spectacular photos! I consistently am turning my head and pretzeling my brain trying to figure the logistics of getting these shots - what an eye and athleticism Onne van der Wal has.Listing of camera settings great for amateur photog a too.

The photography is very nice, displaying various boats in their best light. Nice coffee table book for the sail enthusiast!

My husband loves to sail and was thrilled to receive this as a Father's Day gift. It is a nice addition to his collection.

Wonderful book, stunning pictures.
