How To Fight A Dragon's Fury: How To Train Your Dragon, Book 12

Synopsis

Winner, 2017 APA Audie Awards - Middle Grade Book 12 is the epic finale to the New York Times best-selling How to Train Your Dragon series! The Doomsday of Yule has arrived, and the future of dragonkind lies in the hands of one boy with nothing to show but everything to fight for. Hiccup's quest is clear...but can he end the rebellion? Can he prove himself to be king? Can he save the dragons? The stakes have never been higher, as the very fate of the Viking world hangs in the balance!

Folklore #166 in Books > Audible Audiobooks > Children's Books > Animals #1516

in Books > Audible Audiobooks > Children's Books > Fiction

Customer Reviews

This series is by far the best we've read, and like so many others have noted, my son and I are so sad that there will be no more adventures with Hiccup and his crew. The books are SO much better than the movies and very different. We have hoped for a long time now that they might make movies from the books- true to the characters and stories in them. How much fun would naughty little Toothless (always pooping where he's not meant to and eating things he shouldn't) and the wildly clever Camacazi, and the crude and crass Gobber....it is a mystery why it hasn't already been done!

The story is great. HOWEVER (and it's a big however) the Kindle version is not actually a Kindle file like you're probably used to getting when you purchase an e-book. Instead, this is much more like reading a PDF on your Kindle, with pictures of the pages of the book. This means it's a set size and you have to try to grow or shrink it like a picture instead of being able to use the text size buttons on

your device. It makes a ridiculous reading experience and frankly, I'm amazed allowed a major publisher to hoodwink people like this with a so-called electronic version of their book. Cause it's crap.

My son loves these books. They are full of adventure and the triumph of the underdog. As well as interesting and fun ways that the underdog finds to get out of sticky situations. I really like the hiccup character, he is my favorite kind of hero; good and possibly not your typical hero on the surface, but all hero inside. This is the last one, and I think the last few books are a little intense. (I confess, I am a fairy tale lover, I don't like suspense) But my ten year old son loved every one of them. My only actual complaint about the book is that some of the names are a little crude. (Big boobied bertha is the worst, but there were a few things I would have removed). If you can get past that, I think you will like these books.

Once again read beautifully by David Tennent. Tennant's voices are spot-on and I can't imagine them speaking any other way now. This is the final book in the How to Train Your Dragon series and by far the most mature and profound of them all. When he got this on Christmas my 11 year-old disappeared most of Christmas Day and I discovered he'd holed up in his room to listen to this start to finish. We read the whole series out loud together last year. After we got our first audiobook read by David Tennent, my son, who reads the dialog while I read the narrative, has got Tennent's accents and inflections down pat. This is unabridged, and so is very useful to help my son with his reading, as he can follow along word-for-word, and is willing to do so.

This book was not as good as I thought it would be, but I still enjoyed it. The plot twists were enjoyable to read, less predictable than many adult fantasy novels. The end is very predictable in my opinion. In most other books in the series, Hiccup starts to succeed, the odds turn against him, and he finds a clever way to win. Not so here. Being extremely spoiler minimal here, I can say Hiccup was less clever and more lucky. His kindness starts to pay off. I was a little disappointed

*****VERY SLIGHT SPOILERS***** The way Alvin and the Witch are taken care of makes the book feel like a Disney Cartoon. SPOILER

END***** The Best is Not Always the Most Obvious, and peering into these books, some of the art (in the earlier books for sure) may turn readers away. However, I have learned a good lesson and am sad to see an end to the series.

What can I say other than the whole series narrated by David Tennant is BRILLIANT! Great for the adult who has not lost the child's imagination. Great life lessons for young children with the same "Princess Bride" bedtime story feel to it. Great reminders to adults who have forgotten the noble things in life. This is the last book in the series. I have the series in audio format and hope to one day get Tennant's autograph and Cowell's autograph on this item. Listen to the whole series! You won't be disappointed!

I'm terrible at writing reviews. I always give too much away. So I will just say that my family LOVED this book. We have read the entire series, out loud, since the beginning. This final book ended the series wonderfully. We laughed and cried...even my husband cried at parts. But in the end there was a happy ending. What more could you ask for. Hiccup's quest have been a wonderful addition to our family. We will miss his adventures.

One observation on this book... it rather seems to be almost two separate stories in one. But, hey, it ends a series I've been enchanted with for years and the teacher that I am just about went nuts for all that happened and the wonderful conclusion. So, yes, fans will be downright pleased with this book. Very pleased indeed. Satisfying, powerful ending.
