Ms. Yamin Ma has an M.Ed. in Curriculum Design and Instruction from Queen's University, Canada.

Her research interest lies in educational psychology, ESL, and Chinese language teaching and learning. She has taught both English and Chinese in China and Canada, and is currently teaching Chinese in an international school in Hong Kong.

I'm a Chinese teacher and I always purchase this series. It's very easy to use to instruct, and the kids love it because it contains a lot of pictorials and illustrations to help demonstrate the concepts presented in the book.

This workbook is the companion to the textbook and both are very organized and easy for students to understand. The colorful pages and varied activities make homework quick, easy, and fun. My son's native Chinese tutor chose the textbook and we ordered the companion workbook for more lessons. The Chinese Made Easy has additional levels that the students can grow into.

This is great for us to do together or by herself. It's got step-by-step instructions and illustrations to help her learn her Chinese characters, and pin yin so I can help her learn the words verbally.

I'm not sure why the second edition doesn't have a CD included like the first edition does for the same price. I will be returning this book and buying the first edition.

Good series. My daughter's school uses this as one of their texts/workbooks for their Mandarin language class.

The book designed for primary school kids who start to learn Chinese. It gives basic knowledge of pinyin, strokes and radicals. Has some rhymes and a lot of pictures. I would definitely recommend this teaching material.

Like a new book though said used! Arrived on time. We are happy with this book. Thanks.

Yep, a good assist when learning Chinese and useful addition than just trying to learn with the textbook alone.
