Embarrassing Confessions Of A Marine Lieutenant: Operation Branding Iron, 2.1A

Synopsis

A Marine Infantry Officer confesses his lust for killing and fucking everything in sight, his desire to beat his boss's face in and frag the battalion staff, his willingness to risk Afghan civilians in order to save Marines, his burning desire to win a game of gay chicken at all costs, his personal mission to nail the combat reporter who joined his unit, his sexual arousal at the sight of ED (Enemy Death), and his inability to take serious things seriously; while planning and executing the last combat operation of his deployment in Afghanistan; a nighttime helicopter raid named, Operation Branding Iron Part 2.1A. (Continued from National Geographic's "Battlefield Afghanistan") This is undoubtedly the most honest and raw account of an Officer's thoughts and actions during combat that has ever been written. After publishing this book, Donny O'Malley's job options are now reduced to low level sales and day labor construction. It is still unclear how he ever made it out of the Marines without court martial. Senior officer's will slam him, military historians will be shocked, and all civilians will be 100% certain he's psychotic. Fortunately, the book is written for the opposite of those mentioned above. It's written for Enlisted guys. Officers who are brave enough to read will either cry themselves to sleep, jerk themselves off to Donny's picture, or will ask their buddies to write them up for an award with V for having the moral courage to finish the book. This book is a reach-around to all enlisted, and a FUCK YOU to every Officer who has ever written a politically correct, full-of-shit, I'm a great leader, I'm a book about combat. Every single one of those fucking jerkoffs wrote a book for civilians that not a single enlisted guy ever gave two-shits about. The truth is that Marines love killing more than they love pussy; they fantasize about mowing down insurgents with a 240 on post while 70 virgins take turns blowing them. This is who we are, and I'm sick and tired of nerdy book writers hiding our reality from the public. Fuck the public, they'll judge us and say we're psychotic until they watch an ISIS beheading video, and then they'll beg us to come out of our cage to fight the bad guys. At which time we'll head to the front line of evil and kill them all with a smile. Enjoy the read my brothers, this one's for you.

"If Generation Kill had been written by Sterling Archer. I acknowledge that this work is in many ways a refraction of our own deployments. This is easily the only book on modern warfare in existence that is completely raw and open about the types of twisted thoughts that go through the minds of those asked to do the insane, under asinine conditions, while trying to keep from going completely mad. Those looking for a book on self-righteous heroism, or "patriotic" garble that will somehow justify what we had to do, look elsewhere. Rather, this is an expose on all of the gritty, raw, inappropriate, and downright raunchy thoughts that went through our minds constantly, yet we're too embarrassed to admit." "This is the real deal, and O'Malley is the platoon leader every grunt wants to have. He's the natural leader the brass hates, but the first one they look to when the sh*t hits the fan. As funny as it is, the ugly truth of suicide among combat vets comes through in a very sobering way. Thanks, "Lt. Dan", for holding the flank." - Enlisted Marine "This book is hands down one the best I have ever read regarding life in the Marine Corps, Combat, and Afghanistan. I laughed so hard it hurt on many occasions, and above all, this book is going to save lives. 22 US veterans a day kill themselves due to PTSD related issues. The author issues several calls to action for the reader, and the country, to work against this... There is NO doubt in my mind this book will save lives. If you are a veteran, know a veteran, are interested in war, combat, the Marine Corps, the military, or especially are a guy with combat experience, this book will change your life. Huge thanks to the Author for this work" - Enlisted Marine "On a serious note, I'm a USMC vet and have had some mental health issues not related to combat and on the day I read this book, I was on a bit of a downward swing. After reading it though, my mood was immediately lifted which I think was the intent of Donny's book." - Enlisted Marine "Mr. O'Malley does a fantastic job mixing in some honest to goodness humor to get this point across. I have absolutely no doubt that serving under Mr. O'Malley was indeed an experience of a lifetime. As a prior enlisted man, I would have been

honored to go into battle with him because of his down-to-earth leadership style. I guarantee you Mr. O'Malley had the respect of this men. For most of the book, Mr. O'Malley uses sexually graphic self deprecating humor to get across his real message -- at least 22 veterans commit suicide everyday." - Enlisted Sailor "This book is an excellent window into the mind of a male in a combat zone. True, gritty, raw and hilarious. If you have ever been lucky enough to enjoy the thrills of a sexually deprived combat zone, this book will bring back memories of smashing off knuckle babies in a plywood Porta John and playing spades and gay chicken in between firefights." - Enlisted Marine "Donny O'Malley says what many officers think, but don't say (out loud). His deviant behavior and lack of decency gave me some of the most side-splitting fits of laughter in my life. And as a someone who has served (and continues to serve) through four combat deployments, I understand the importance of laughter during shared misery. His words will make you recoil in disgust, laugh your ass off, and give you a newfound respect for the men and women who put life and limb on the line. Contrary to what some will say, this book is life line to all service members everywhere suffering through wounds seen and unseen... As well as closeted, degenerate officers. Thanks Donny!" -Marine Officer

Best book I've read in years! Any grunt who has thrown lead down range can relate to this book, from edging on the verge of heat exhaustion while in the porta-potty to climaxing while slaying bodies in firefights. You'll be taken back with each flip of the page. It doesn't matter what grunt unit you've been in because everything written is so relatable that it will bring you right back. If you're easily offended or have never been to war than this book probably isn't for you.(Review edited because it contained too much profanity)D.S2/9 G Co Wpns Plt0331 (07-11)

This was by far one of the funniest and most entertaining books I have ever read. The majesty of the stories detailed in this book extend far beyond their comedic value... the simply knowledge that there is at least one Officer in the Marine Corps who isn't afraid to be honest and lay his reputation on the line for his Brothers instills a love for the Corps many lose over the years. To any Marine who has served in either Iraq or Afghanistan, you can rest assured, O'Malley paints an amazingly familiar story depicting the everyday interactions between Marines that rarely ever gets brought to light. I only wish gave me the option to rate this book higher than 5 stars. Because I assure you, I would rate it much higher if given the chance.

LT O'Malley superbly delivers the inconvenient truths of the afghan war. It gives a very raw view of

life while deployed that only a fraction of the population will ever understand. This book does an incredible job of using humor to bring attention to a dark cloud that floats over the lives of many Marines. Enjoy the laughs, hide your erections, and be sure to reach out to a platoon mate to see if they prefer the reach around or the frontal attack.

If you have an overwhelming amount of patriotism, don't get butthurt over inappropriate language or strong sexual innuendos and basically have an all-around love and appreciation for not only dirty humor but pride in the men and women who put their lives at risk on a daily basis, READ THIS BOOK. Read this book if you're even remotely interested in a reality check as to just how many guys have eaten a bullet because we've failed them at giving them the support they need when they get back here. READ THIS BOOK. I'm not, nor ever have been, affiliated with the military other than being a wife of a former Navy Chief. However, I do try and show my support to those who have served and witnessed the horrors of war, whether it be by monetary support or volunteer work. I hope that this book makes a difference and that, soon, we are able to say the numbers of suicides among these men are a FAR lower rate than an average of 22 per day. READ THIS BOOK. Laugh out loud at the inappropriateness of his humor. Let the sadness wash over you at the names listed at each chapter's beginning. But, most importantly, read this book, suggest it to a friend, push the awareness and let's try and make a difference. Many thanks to Donny O'Malley for writing this, for trying to gain more attention, bring more awareness to this issue...this tragedy. I hope to someday shake your hand, thank you and buy you a beer.

This mirrors many of the letters I've received from Marines over the last 10 years, although they tend to clean the letters up a little bit. This is disgusting, hilarious, and passionate. I've never laughed so deeply or cried so hard. Don't read this if you think human behavior needs to fit neatly in some construct or if you're incapable of seeing true heart nestled amid things you find revolting. This author, and Marine, is unafraid to be deeply human and this book is very moving because of it. If you've never known a veteran wounded so badly they have mostly only dark places to go in their minds, then you may not understand the importance of this book.

As a certifiable civilian sissy, this book not only entertained, but provided excellent insight into the mindset of so many of our friends, family and countrymen that served in GWOT. You won't see a yellow ribbon on my vehicle, I won't make both of use feel awkward (or annoyed) by thanking a stranger for serving; but the respect is and always will be there. Donny might have a few screws

loose by most [boring] standards, but he obviously possesses more heart and character than most humans you will meet. As raunchy, gut wrenching, sobering, entertaining, hilarious, informative, exciting and ridiculous as this book is; what stands out above it all is the deep love and appreciation he has for his brothers, his country and veterans across the board. Support our veterans, even if it's just giving them a call out of the blue and connecting. The fact some of the best people this nation has (and had) to offer are taking their own lives in such staggering numbers should put a knot in your chest. By buying this book you are not only getting a great read, but will be supporting a combat veteran who is doing everything in his power to affect change on this ongoing tragic statistic. Godspeed Donny, beer's on me if our paths ever cross.
