Customer Reviews

NATIONAL GEOGRAPHIC KIDS inspires young adventurers to explore the world through award-winning magazines, books, website, apps, games, toys, television series and events and is the only kids brand with a world-class scientific organization at its core.

Wonderful book/activity book for 4 year old. Sticker pages correspond to the book pages so it is easy to find the correct stickers ie dino eggs, claws, whole dinos as you read through the educational book. 4 year old had difficulty getting some stickers to peel off the sticker pages - some ended up in multiple pieces. Perhaps thicker sticker pages would remedy this. Stickers are not reusable, I would like to have seen plastic book pages with plastic stickers (electrostatic) which would permit reusing them and provide years of book use versus the one time only use in its current

form. Not just stickers. Some sections of the book ask the child to color dino scales, eggs, etc. and there are some mazes for child to get the dino to its food etc. if you are seeking a great educational and fun book for a child who likes dinos - this is it!

This book is such a wonderful activity book for my son. He absolutely loves dinosaurs and this book has a lot of great facts and information relating to dinosaurs. There are stickers, coloring, mazes, and many other things. I highly recommend this to anyone who has little ones who love dinosaurs.

My 4 year old dino-crazy son loved this book. Kept him busy for a long time. Good quality stickers that didn't require me to help all the time!

These are a perfect activity for a rainy afternoon. You can put the stickers together while talking about the included dinosaur facts, and then kids can color a little on their own. It's all kept very simple--with minimal text--and appealing to younger kids who are not yet readers.

It was a big hit with my nephew and niece!! I will be buying more of these type books for sure. they are 4 and 7 so big age range and both still loved it.

This was one of my five-year-old's birthday presents and he loved it! I was easily able to tear out the sticker pages and cut the appropriate parts to go with the appropriate pages, he loved matching the stickers up and doing the mazes particularly!

My grandkids ages 3 and 5 love all the National Geographic Sticker activity books. What I love as a retired teacher, they have learned and had fun at the same time.

Stickers, stickers, stickers. No matter how many times I say I have banned stickers, these friggin books make my kids so ridiculously happy, that I can't say no.
