A master book about the influence of vibrations (music) in our life, the meaning of love in our heart and how we are all connected to everything. Very simple and clear writing. I am not a sufi follower, but the teachings of HIK definitively touched my heart deeply. This man was a real mystic human being beside his background (just my feeling). A real surprise will be waiting for you in his writings. I do recommend this book specially to improve our view of the modern way of life (internet, social networks, videos, lots of working hours... etc)

excellent book & prompt delivery & item as described; complete satisfaction

The challenging part about reading a book by an enlightened being is that the author is writing from an experience of consciousness (non-duality) that is impossible for the ego (duality) to comprehend. However, Hazrat Inayat Khan's writing is easily understood and could be valuable to both spiritual aspirants on the path to enlightenment and/or musicians looking for deeper levels in their artistry. This is a book to be studied, not just read. In it are keys to understanding the mysticism of sound, music, color, words, and silence.

This man has something to share with musicians, poets, and music lovers. You will want to own this. I did after I first picked it up at the public library years ago.

It's good for a present to people who are interested in the subject. We will keep buying the copy for a while, one of the classics of our house.

amazing!!

Thanx!

Best book ever
