## **Customer Reviews**

This was the only supplement my professor suggested so of course I bought it. It did help me understand some concepts I missed in class but it was very heavy on theory. I think it may be better for an advance torts class and not the normal 1L course. It's not much use for daily or weekly studying but it did help at the end of the semester to kind of pull all my knowledge together. I pretty much walked out of the final and immediately donated it to the school's library for incoming 1L's but I regret it a bit. I think that it could have been more useful to me now that I'm a little more advanced.

This is going to save my GPA. Bless this damn book. If you don't want to let a professor slowly lead you around by the nose, get this and always be on top of what's happening.

Very informative book. Ads a bit more insight to Torts Law as a whole.

very good.

It's in good condition!
