## Customer Reviews

"Howard Rosenthal is a gifted and humorous writer as well as a scholar's scholar who has a way of explaining complex concepts so they are understandable and easily remembered. The fourth edition of Encyclopedia of Counseling proves that and provides the reader with all the information necessary to pass the National Counselor Exam or any other test related to it. Rosenthal's book is exceptional and worth reading just for the fun of it." Samuel T. Gladding, PhD, professor of counseling, Wake Forest University "Dr. Rosenthal's Encyclopedia of Counseling is an invaluable and comprehensive tool in preparing for all required counseling exams. Covering all eight areas of counselor competency, it is the only review tool one needs not only to pass the exam, but also to assure oneself that one has achieved a strong foundation on which to build one's practice." Kristy Cobillas, MEd, LPC, NCC, counselor, Agape Christian Counseling Services, St. Louis, Missouri

Howard Rosenthal, EdD, CCMHC, HS-BCP, LPC, MAC, NCC, is professor and coordinator of the human services program at St. Louis Community College at Florissant Valley and is the author of numerous successful publications on counseling, counselor training, test anxiety, and test preparation.

Very practical study guide!! This encyclopedia offers many exercises for those who value mock tests in preparation for exams. Each exercise explains why the right choice is right, facilitating your learning and pointing out to the areas that need more study.

Great book, much more than #3. Just slow shipping and 5 days late with prime

A must have if you are planning on taking the big one. I'd recommend studying for about a month though as this book is a dry read. Pace yourself and you should be able to absorb this book fairly well.

Great book for my degree program and helpful to my master program in general psychology!

This book was recommended by my professor. It is an easy read.

I studied both the 3rd and 4th editions of Encyclopedia of Counseling. I believed both versions helped me pass my NCE on my 1st attempt. I believe this book and his CDs give you the foundation you need, but you still have to be able to use critical thinking to pass the NCE. So, I would also recommend going to [tests.com](https://www.tests.com) and searching for NCE. They have a program that my supervisor found that helped me to think critically. The program is only \$40 and it guarantees you that if you purchase their program you will pass the NCE and if you don't you'll get your \$40 back. I believe that Rosenthal's books and CDs are a must, but you need to use multiple study aids so that you can cover more study components.

This book is a great way to study for an upcoming NCE or comprehensive counseling exam. And it's not too boring; the writing style makes this very easy to read while teaching a wealth of information.

Excellent resource.
