Customer Reviews

This book gives both tab and sheet music that help you start visualizing notes, and tying it your fingerboard. Bass players are typically playing basic figures, but this material gives the bass an outlet for melody and a way to improve your playing quickly. The audio that goes along helps tremendously.

This is a book "print on demand" same price por poor quality. Dont buy it on .com

He wrote out these arrangements in tab as well. This makes it easy for those bassists who don't read music to play Bach on the bass! Not only that but now that I can play a few of these tunes on the bass it gives me some really great exercises and an excellent workout. I've had this book for

many years. It's a great buy for sure. Not as difficult as one might think to learn Bach!
