Customer Reviews

I find this to be a really exciting cookbook, for lots of reasons. Right from the first lines of prose, it creates a warm, inviting, interesting tone that made me optimistic about what was to come. Then, the recipes are, for me, the perfect combination of simplicity and non-boringness: simple enough that I can, and want to, make them, with many old standards (e.g. apple crumb muffins, apricot cheese pastry ring), yet interesting enough that there are many I don't already have in my repertoire (coconut muffins with pineapple glaze, blackberry shortbread tart). And speaking of many, that's another thing I like about this cookbook: the abundance of recipes, and photographs that both stimulate my desire to bake what the photos show, and let me know what I'm aiming for. The layout makes it extremely easy to follow the recipes (don't even get me started on all the cookbooks that don't do this), and both the book's introductory text and that in the recipes themselves add interesting and useful information, so that I not only know what to do, but why I'm doing it--so in addition to the fun of reading the cookbook and baking the offerings within, I get to learn a lot as well. I also appreciate Leahy's many useful tips (e.g., the importance of using a good quality honey, and her preference for Savannah Bee Tupelo because she prefers its flavor and because "it doesn't crystallize," and the reason for using European butter in laminated pastry dough) and her accommodating to the preferences of many of us by excluding the use of corn syrup because of the high fructose), and explaining why she uses sugar, so that those who use sweetener clearly understand the trade-off. All in all, this is a cookbook that is, for me, great in all aspects, from the pleasure of reading it, as I do with cookbooks, straight through as if it were a novel, to its utilitarian function as a source of interesting and useful information and great recipes. I doubt that home bakers the likes of those in, say, "The Great British Bake Off" would have much use for this cookbook (though they might still enjoy reading it), but for the rest of us ordinary mortals, highly recommended.

I have never been much of a cook or a baker. It's a situation I have been looking to change as I grow older. My culinary talents in the kitchen are increasing slowly and I have set my

sights on trying to improve my baking. Enter Donna Leahy's "Baking for Breakfast." Anyone can make a cake, but making homemade donuts with love will make you famous in your family. This is comfort food on the sweet and savory scale, the kind that pulls you into a bakery or entices your nose as you walk down the street. This book helps you learn how to craft and create those amazing concoctions with ease and flair, making each one personal to your own style and your own kitchen. I have only made a few things so far found in these pages, but those few treats have already made me a hero around the table. It's Apple season in California, so I have an abundance of the fruit. I've made the Apple Spice Donuts, Apple Sour Cream Crumble and an Apple Sour Cream Tart so far, with more creations on the way! Easy to read and easy to follow, this is a baking book that belongs in every kitchen.

I enjoy eggs and bacon as much as most people but my favorite things to eat in the morning are baked goods, such as muffins, donuts, and coffee cakes. I really had no idea how to make these sorts of things at home, without a boxed mix, so I picked up author Donny Leahy's "Baking for Breakfast". This is the most thorough breakfast baking cookbook that I have ever run across and the choices seem endless. Each recipe is very well described and there are some wonderful images in the book as well. I have already made the Pecan Chocolate Chip Scones, Spice Coffee Cake, and Beignet Fritters. Yum!

Take your breakfast skills to a professional level with this fabulous cookbook. You can go as simple or as elegant as you like and yes breakfast can definitely be elegant. This offers dishes to awaken the taste buds as well as your brain. So, get up to a smell other than coffee and Pop tarts.

So far every recipe I've tried has been delicious. Everyone loved the Blueberry Muffins.
