Core Concepts Of Government And Not-For-Profit Accounting

Synopsis

Building on the success of *Government and Not-For-Profit Accounting, 2/e*, Michael Granof and Penelope Wardlow's new text, *CORE CONCEPTS OF GOVERNMENT AND NOT-FOR-PROFIT ACCOUNTING* presents a concise, accessible, user-oriented look at the unique features of governmental and not-for-profit accounting. The text helps students understand the why of accounting requirements and how financial statements may be interpreted and used by a variety of interested parties, such as future managers, bond analysts, and members of legislatures and governing boards.

Customer Reviews

The purchase of *Core Concepts of Government and Not-For-Profit Accounting, Second Edition* includes a student edition of Sage MIP Fund Accounting – the preferred nonprofit and government financial management solution used to plan and manage budgets, maximize grants and produce accurate customized reports in minutes. Sage MIP Fund Accounting software addresses the specific needs of organizations that need to track and report on multiple funds across multiple budget periods to meet their reporting requirements and demonstrate accountability.

Cut Straight to the Core Concepts Offering concise, flexible and current coverage of key principles, *Core Concepts of Government and Not-For-Profit Accounting*, by Michael H. Granof and Penelope S. Wardlow, identifies the issues and unique features of this specialized accounting field. This

edition explores the new financial reporting model for governments (GASB Statement No. 56) with references to real-world institutions, ranging from cities to private universities. With extensive end-of-chapter discussion questions, exercises, and problems that combine a hands-on reporting and an underlying philosophy approach, students from all backgrounds will benefit from this comprehensive text. This 2nd Edition Features: A new chapter on Auditing Governments and Not-For-Profit Organizations Coverage of government accounting standards through GASB Statement No. 56, issued March 2009 A point-by-point guide on how to prepare government-wide statements from fund statements Illustrative financial statements for real-world entities, including cities, non-for-profit healthcare organizations, and private universities A continuing problem on interpreting and using the financial statements of a real city Introduction to the new FASB Codification, which includes all FASB standards, AICPA Audit Guides, and other publications that affect not-for-profit organizations and businesses Updated key points about how to address the financial analysis of governments and not-for-profit organizations New bulleted "Chapter Highlights" at the beginning of each chapter

The book was as good as expected. It takes time and effort to work through the exercises. A lot of the problems at the end of each chapter were hard to figure out because there are just not enough examples to guide you. In general, the book is a good source of reference when you work with either governmental or non-for-profit accounting.

The book is very good except some one smoke when they read it or it store in a smokey place.strong smell!

It's not the most interesting book in the world (mainly due to the topic), but it presented the material well enough to give the reader a solid understanding of the subject matter. The book is priced reasonably compared to many other textbooks.

Book is extremely dirty and in poor condition

This book is very indepth and not for someone that is not detail oriented and doesn't already have a strong knowledge of accounting transactions. Also the text covers more about government accounting than Not-For-Profit.

It did meet my expectations

Grest!

Great book for the price. I always shop around for school books. My school store books cost too much. Great place to shop for any school books no matter what college you attend.
