Customer Reviews

ITMB Publishing (International Travel Maps and Books) of Vancouver, Canada, has published detailed reference and travel maps of countries, regions, and cities around the world since 1985, including an extensive series of country, regional and city maps of Asia.

Unfortunately this appears to be all that is available in the USA and it's not worth it. Filled with inaccuracies. I've been to Mongolia seven times now. On my fifth trip I had this map and showed it to my Mongol driver/guide. He looked it over, burst out laughing and proceeded to point out some of the mistakes that caught his eye, like towns with incorrect names or that were not in the right location. If you are going to Mongolia, wait until you get to Ulaanbaatar. Go to the 6th floor bookstore at the State Department Store on Peace Ave. and see what they have. Availability can vary over the course of the tourist season, but there's now a decent road atlas in English that will fit into a

backpack. For folding maps, get the "Tourist Map of Mongolia from MPM (Map Product of Mongolia) if you can. The version I have is in a folding cover which has a photograph of camels in front of a sand dune and an orange stripe down the left side with some beautiful Mongol vertical script, which they call "bishig". Buy two- one to use on your trip that will get beat up and one to keep to pin to the wall at home and mark your travels on.

It's always fun to look for places that you've heard of on a great map that helps you find them. I know I'll never get there but I feel like I have when recognizing those place I've read about and can see the special relationship between the dialect regions described in grammar books.

This is a fairly large map of Mongolia. The detail is good. It was a bit expensive, and it could have contained more info had it been printed on both sides. I also could have had more latitude and longitude lines to help with GPS navigation, but I am traveling to and thru Mongolia in the near future, and I am happy to take it with me.

Only downside is its 2 sides so you cant hang it on a wall - but has great detail in the map itself

will read later have had no time, when my trip gets closer will sit down with this book, am sure it will be helpful
