English-Russian, Russian-English Dictionary

Synopsis

Based on American rather than British English, this is among the first Russian dictionaries revised for the post-Soviet era. Includes new political terminology, new Russian institutions, new countries and republics and new city names. Contains 26,000 entries in the English-Russian section and 40,000 words in the Russian-English section. Irregularities in Russian declensions and conjugations appear at the beginning of each entry.

Book Information

Paperback: 1120 pages

Publisher: Wiley; 2 edition (December 7, 1994)

Language: English

ISBN-10: 0471017078

ISBN-13: 978-0471017073

Product Dimensions: 6 x 1.2 x 9.1 inches

Text: English, Russian --This text refers to an out of print or unavailable edition of this title.

This is must for every American who is learning or will learn Russian (reading, writing or speaking). I didn't get this till I was about a year into the country, and what a difference it made! I had been using a small pocket dictionary that was based on British English, so some words weren't included. This though.. wow!The author makes it very easy to look words up, gives their meaning and indicates what type of word it is (noun/adjective). What is really important, and key to the foundations of Russian Grammar is the noun declination he lists and verb conjugation. Two very important things that he gives a section to before diving into the book!He does have a thorough list of words for American English (25,000) and Russian (40,000) so 60,000 all together. Very useful for the American that wants to discuss and talk about American English, culture, slang and more! A must!

I used this when I lived in Saint Petersburg while staying with a Russian host family. This was one of the only ways that we could communicate! In fact, we just kept it on the kitchen table so that we could look up anything we needed to. The dictionary is pretty huge and inclusive. You can find pretty much any word you're looking for. If you are new to the language, I would recommend getting sticky note tabs to mark where each new letter starts, otherwise you'll spend a lot of time flipping. I only wish that it was a little bit smaller so I could carry it around, but you can find phrase books for that.

This is a great dictionary. In fact, my husband and I have had this dictionary for almost 10 years and stupidly I left it out in the rain a day or two ago. Needless to say, I placed an order for a replacement immediately through . I would not even consider another dictionary. I bought the Oxford Pocket Dictionary at a library sale for a buck or two that we keep in the car, and it is practically useless in my opinion. It just reaffirmed my high opinion of this dictionary. Katzner's dictionary is laid out well, offers phrases using many of the entries and is just indispensable for someone wanting to learn Russian. In fact, a Russian friend of ours said my Russian was "unexpectedly rich" and thought maybe we had Russian literature lying around the house. I totally give this dictionary credit. I hope my replacement arrives soon!

I think the translations in this dictionary are better than the larger, more expensive, Oxford one, and I can actually lug this one around with me! I use it so much that the spine started to fall apart... I taped it up and glued it together, but now I haul it around in a bible cover, which works perfectly! I wish I thought of using a bible cover earlier. And the best part of using a bible cover for a Russian book, imo, is the irony :)

The dictionary is clear and concise, clearly delineates meanings of words with great examples, and it contains accent marks for Russian words and irregular inflections. It is the gold standard of reasonably sized English-Russian/Russian-English dictionaries. One should still note however that Russian speakers may be disappointed to find a lack of IPA transcriptions for English words, as it is clearly more aimed at English speakers.

For me best translation. Gives examples of American English usage, which is what I speak. Makes it easier to understand nuances of the Russian. I love this dictionary. I have several and don't love any of the others.

The Best Russian-English/English-Russian dictionary for American-English speakers. Easy to read. Nicely formatted. A strange bit of trivia: in the 2013 film "Gravity" starring Sandra Bullock and George Clooney, this dictionary makes a "cameo" appearance on the International Space Station! Look for the dictionary's distinctive red cover with blue seal.

Fantastic Russian-English and English-Russian dictionary. As a Russian translator, this is my BEST and most used Russian dictionary. This book is an absolute MUST for anyone studying the Russian language!
