How To Write A Book ASAP: The Step-by-Step Guide To Writing Your First Book Fast!

*"You'll wonder how you ever got along without it.
A powerful guide to support writing your book."*
– Robert Evans of the Messenger Network

The step-by-step guide to writing your first book fast!

Garrett Pierson

Synopsis

Have you ever wanted to write a book? Have you started to write your book, but weren't able to finish it? Are you ready to become a published author? Discover inside secrets to writing and publishing a book fast. It doesn't matter if you want to write a novel or a non-fiction book: Garrett Pierson's tools and strategies will guide you step by step. There are many mind-boggling and complicated ways of writing a book at our disposal. This is not one of those. In fact, this book is perfect for someone who wants a simple, flexible, and streamlined approach to start, write, and complete a book fast. This is not a get rich quick book, nor is it a book that guarantees your success. That is up to you. I can't write your book for you. This book is for those of us who want to write regardless of what others say about our ability to write. It is for those of us who want a step-by-step guide to the process and strategies to finishing a book. The book is specially formulated to be a tool to support your success. If you want to avoid mistakes and prevent costly pitfalls, whether those pitfalls be measured in time and/or money wasted, then this book is for you. This book is all about achieving real and practical writing results. You will only become a writer/author through the act of writing. This is your golden opportunity to stop talking about writing a book and actually do it. Only when your book is finished will you truly understand the authority and respect authorship demands and how the title of "author" can open up new channels of achievement and profit. You might find this book to be somewhat unconventional. There may be established writers who disagree with my writing style. That is to be expected since I do not come from the traditional writing world. You will soon learn my story and though I was an overall good student, I was a terrible English student. I know this might sound clichÃ©, but if I can become an established writer, anyone can! More than most people, I understand your concerns, anxieties and questions when it comes to writing. I've been where you are and know how to overcome the roadblocks you undoubtedly will encounter. That's why I wrote this book. To help guide you towards the finish line so that you can proudly hold your own book in your hands. Here is what you can expect to learn while reading this book:

- All the right ingredients to get started
- Why you shouldn't start writing until you're ready
- Detailed strategies for organization and self-control
- A crash course in the basic writing process
- Rewarding yourself by shifting your mindset
- Clear steps to finishing your book fast and staying laser focused
- Traditional publishing vs. self-publishing and what is right for you
- How to become the authority in your market when your book is finished
- Plus much more!

Don't delay! You've waited long enough. Let's get started, you'll be glad you did!

Customer Reviews

I first heard about this author on NPR, so I wanted the book to help me with practical advice for publishing. Mr. Pierson gives specific advice on the mechanics of writing and the most accessible means of publishing for new writers. I'm very glad I bought this.

This book provides ZERO (0) information on how to write a book. I am not just saying zero valuable information, it literally provides zero info. This is an ebook like scheme that basically says the same thing a couple hundred times throughout his book that have nothing to do with writing a book.

This book is very short and to the point! I found it to be most helpful, and it has a lot of helpful contact information concerning various aspects of writing and publishing a book!

When I decided it was time to write a book I had no idea where to start. This book guided me through getting started and finishing. Now I am on to the publishing nightmare. Very excited !!!

If you have already written a book, but looking for some good self-publishing tips, chapter 9 is a must read. The author does a great job outlining contractors via Elance to use for everything from cover art to editing.

Good information for beginners.

This book was exactly what I--as a first time author--needed to read. I'd venture that nearly half of this book was about 'getting your mind right' during the writing process, keeping your mind right during the process, staying motivated to continue, and defining the reasons that you must complete your book. If you've never written a book, you can't know just how much effort your mind will put into stopping and discouraging you, and Garrett gives you tools to fight through that in this book. I'd have to question anyone's review that attempts to say that EVERY author (no matter the experience) can benefit on some, if not many, levels from reading this book. He offers basic points of focus on every step of writing, publishing, distributing your book (beginning to end), as well as 'where to find' help & resources. In the end, this was a book that I will, at the very least, read again in the future to ensure I am putting the recommended practices in place as I write. Well done!

How to Write a Book ASAP is not just another book about writing a book. This book is a tool that you use over and over again. I will say that it is like a rasp because it will keep you sharp! This book is very motivational and will inspire you to bring out that author within. Garrett, in a very gentle way, will inspire you to step out and take the challenge. For me it was to once again start writing that book which I had started but had put on the back burner for the past 5 years. This book is also not overwhelming but goes through the step by step process of what is needed to get that book from the first word to the first copy. It is also full of resources that you will go back to over and over again, to help guide you through the process. Overall, I feel that this book is a great resource. It is not just another book, but rather a tool; one that won't just sit on your bookshelf, but will be a tool that will be used over and over again.
