Customer Reviews

Probably best text on the subject out there. It has altered how I do some surgery and improved our consent forms. In the electronic world it might be nice to include a DVD or password to locked online clips of surgery - but it would probably all end up on YouTube.

Excellent book. Never see something like this. Very helpful when you start to make vaginal cosmetics.

Perfect and fast delivery

The book did not correspond to my expectationsI expected more

Series of articles. There is little connection between them.
