Customer Reviews

A great start for anyone who wants to start attracting an abundant of women into their life. This book will teach you the basic on how to become a more attractive man by learning the right things to say and how to read social cues when it comes to interacting with attractive women. good read.

I don't usually leave reviews for the books, I've read other books and they give good examples, but this one goes far beyond that. It really teaches you how to be confident. Excellent! Thank you!

This is a good book for everyone looking for help and advice for dating. The book points out to different personalities and can help people from different backgrounds and opinions.

I really liked some parts of this book and disliked a lot of parts. The author goes back and forth between speaking very respectfully about women at times and totally objectifying and disrespecting women at other times. The author makes a distinction between alpha and beta males that seems over simplistic and over done. The book is mildly entertaining but not much substance here.
