# The Hammer Of Eden

## Synopsis

The FBI doesn't believe it. The governor wants the problem to disappear. But Agent Judy Maddox knows the threat is real: an extreme group of ecoterrorists has the means and the know-how to set off a massive earthquake of epic proportions. For California, time is running out. Now Maddox is scrambling to hunt down a petty criminal turned cult leader turned homicidal mastermind. Because she knows that the dying has already begun. And things will only get worse when the earth violently shifts, bolts, and shakes down to its very core.

in [Books > Audible Audiobooks > Fiction & Literature > Action & Adventure](#)

## Customer Reviews

If you enjoy Ken Follett's books, get this one, you won't be disappointed. Fast paced story about a subject that is new for him and me.

While there is good character development and an interesting, if totally unrealistic, plot line, "The Hammer of Eden" was a disappointment when compared with so many exceptional works of literature written by Ken Follett. Follett is one of my favorite contemporary authors and his works are usually very well researched. He has an ability to interweave actual happenings into his story lines but, in this book, he completely missed his commonly high level of excellence. I usually give his books the highest score possible but, in this case, it rates only a mid-level score. The same story written by an unknown author as a first book may have gotten a high rating but having read all of Mr. Follett's writings prior to reading this book I was very disappointed. I cannot believe that Follett

himself would choose this book as a representation of his best work.

If you love Ken Follett, then this is another page turner for you. Loved the aging hippie anti-hero and identified with his passion for simplicity, even if he went about it the wrong way. A three-dimensional character, for sure. Along with good pacing and plot development, the author skillfully merges the story line of the commune along with that of the female FBI agent. A bit of humor sprinkled throughout also. That said, I don't think I have ever read a Ken Follett book I failed to love (and I've read them all), so I might not be the most objective reader.

Love Ken Follett books!

Hammer of Eden is a little more of a beach book than some of his others, but very enjoyable.

A typical Follet book full of interesting details that keeps ones interest

This is can entertaining book, and worth reading 100%. The reason I gave it four stars is because, all other books I have read by Follett I have found difficult to put down and finished them very quickly. This book took much longer and I did not look as forward to getting to read as I normally do. But it was enjoyable and extremely creative...I appreciate the plot very much.

Was a good book. He is easy to read but I enjoyed some of his other books more. Waiting for his new book.
