50 Strategies For Teaching English Language Learners

Synopsis

Note: This is the bound book only and does not include access to the Enhanced Pearson eText. To order the Enhanced Pearson eText packaged with a bound book, use ISBN 0134057295. 50 Strategies for Teaching English Language Learners includes a rich assortment of practical strategies aligned to TESOL standards, which have been field-tested in diverse classrooms. Each strategy includes a brief explanation, step-by-step instructions on how to plan and use the strategy, and classroom scenarios demonstrating how the strategy can be adapted for different grade levels and content areas. The authors have included additional strategies in language and literacy development, technology, and assessment to support both pre-service and in-service teachers. The Fifth Edition represents a major change in standards-based education that helps educators meet the additional challenges of the Common Core State Standards in the process of acquiring English. Included are six new strategies, self-evaluation rubrics, adaptation charts, classroom examples demonstrating approaches to CCSS, video links, pop-ups encouraging further reading, and a glossary of terms encountered in the text. The Enhanced Pearson eText features embedded video.

Customer Reviews

I'm an ELD teacher and I have found the strategies both relevant and up to date, using current best practices as of 2017. I hate (HATE) purchasing books that have show strategies that are really basic or are based in old research practices.

Bought it for class, had a lot of useful tips though I fully recommend making each strategy your own and not following the book exactly as written.

I have many ELL students in my class and this book was helpful for me while working with them. I thought it was worth the price.

This is such a helpful book! It not only explains the strategies, but it explains the reasoning behind the strategies.

This book has wonderful strategies. I wish it wasn't so expensive and I wasn't so poor because otherwise I would keep in my classroom.

I love this book. I ordered it for an ESOL class I was taking. I thought it would be another one of those books I would resell after using it for the semester... I was wrong. I liked the book so much, I plan on keeping it as a resource to use during my teaching career.

great book

I'm very pleased with this book, I have just started to read it!
