Love, love, love! Would have been 5 stars if it included nutrition information. With so many folks having to watch carb intake, I am always surprised (and sad) when calories, carbs, and fiber aren't included in a recipe.

I bought this cookbook to use in my trailer ... which doesn't have an oven, just burners. Since it was titled the "skillet" cookbook, I assumed that all dishes could be made "only" in a skillet. I was disappointed to find recipes that called for other means of cooking.

very interesting recipes

Some very good recipes.

Love skillet cooking!

LOVE IT.

These recipes are not impressive and not what I expected this is just OK

My wife saw this and said she had to have this book. Am glad she liked it. It is filled with easy to make recipies that are very wholesome - - and all of this in our old iron skillet.
