Nielson Phu is a teacher, author, and SAT perfect scorer. Since graduating from NYU, he has helped hundreds of students throughout Boston and Hong Kong improve their own scores with a unique approach that goes far beyond the basic strategies found in typical test prep material. Although he is now an engineer, he continues to teach through The College Panda, an in-depth blog with more than 20,000 readers each month (<http://thecollegepanda.com>)

Worth the price and effort to get this! As my second child prepares to do the ACT, and prefers to do self-study vs. tutor, I wish I had found the "College Panda" series 2 years ago for my oldest child! These books offer encouragement, practical advice and smart studying! My son, who has done well on the PSAT with no study, has been obsessed with working through these Panda books! As a parent, I appreciate the book offering him quality study and holding his attention, while clearly pushing him to understand the ACT material better. The series seems to be highly engaging! I bought the ACT MATH, ENGLISH and more advanced ACT Math. All three are great!! I only wish there was a Science one too. THANK YOU Nielson for your work!

I'm a professional test prep instructor. This book is much better than most books on the market. Lots of practice questions and detailed review material.

Wonderful prep book! Invaluable guide for all the math you need to know. The College Panda has been a fantastic resource in all things ACT!
