Lizards Coloring Book (Dover Nature Coloring Book)

Synopsis

Lifelike portraits of 30 scaly creatures – from a tiny dwarf chameleon to a ten-foot-long Komodo dragon fill this coloring book. Valued as exotic pets in many parts of the United States and around the world, lizards come in a wide range of shapes and sizes. Award-winning nature artist Jan Sovak has accurately rendered 30 of these curious creatures and placed them in appropriate habitats. Included are realistic images of a leaf-tailed gecko, a blue-tongued skink, a ferocious-looking marine iguana, a chuckwalla – a plump lizard with a taste for fruit, leaves, buds, and flowers – and many other varieties. Descriptive captions included.

Book Information

Series: Dover Nature Coloring Book

Paperback: 32 pages

Publisher: Dover Publications; Clr edition (March 24, 2006)

Language: English

ISBN-10: 0486448207

Customer Reviews

Jan Sovak is an illustrator, designer, and fine artist recognized as one of Canada's foremost natural history illustrators. With advanced degrees in both fine art and zoology, Jan has had his work published in over 170 books in more than 15 languages. His illustrations have also appeared on educational television and on Discovery Channel Worldwide.

I absolutely love this book! It is so hard to find lizard stuff sometimes. This coloring book is fun AND educational; plus the price is fantastic. I just wish it was a little bit bigger myself. I do see how it could be a little difficult for a very young child to enjoy it, but I do not think older kids would struggle

too much with it. As someone in my 20's with a lizard of my own this book is great fun! =3

Very nice color book for youngsters who enjoy nature, especially lizards & geckos. But this is much more than a color book. There are wonderful facts and pictures to help guide the young artist in accurate color schemes. As a teacher, I highly recommend this book.

Used as a gift for one of my student's that was being promoted to the 9th grade

I like Dover coloring books. When I give them to children I always explain that the pictures in the front and back of the book show you how the animal actually looks but to feel free to paint them orange and green if you feel creative. I usually provide them with a box of 24 crayons too.

Just what I wanted

Nephew loves lizards and loved this coloring book!

My Grandson enjoyed it a LOT!

The drawings were great!
