Research Methods In Kinesiology And The Health Sciences

Synopsis

Wolters Kluwer Health is pleased to introduce this innovative first edition by acclaimed authors Susan Hall and Nancy Getchell aimed at helping students learn vital research skills in an accessible manner. Â Designed for introductory research methods courses at the beginning graduate and undergraduate levels, Research Methods in Kinesiology includes all major topics conventionally addressed in introductory research methods texts. Taking a practical approach, this book focuses on topics directly related to development of research proposals, since these topics are most relevant to beginning researchers. With unique chapters on research writing style and matching statistical tools with research protocols, readers will find this book written in a conversational tone intended to make the topic more readily understood by today's student. Â Problem-based learning activities help students apply the skills they've learned and prepare for actual research. An online suite of ancillaries rounds out this book and provides instructors with additional support in teaching this critical topic.

Book Information

Hardcover: 385 pages

Publisher: LWW; First edition (March 4, 2014)

Language: English

ISBN-10: 0781797748

ISBN-13: 978-0781797740

Product Dimensions: 9.1 x 7.1 x 0.7 inches

Shipping Weight: 1.6 pounds (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 2 customer reviews

Best Sellers Rank: #57,116 in Books (See Top 100 in Books) #60 in Â Books > Textbooks > Medicine & Health Sciences > Medicine > Clinical > Sports Medicine #78 in Â Books > Medical Books > Medicine > Sports Medicine #713 in Â Books > Health, Fitness & Dieting > Exercise & Fitness

Customer Reviews

Very easy to digest. Book is an easy read compare to other types of book which cover the same topic

I am very pleased with my books great quality!
