The Extra-Dimensionals: True Tales And Concepts Of Alien Visitors

Synopsis

Extra-Dimensionality is the key to understanding everything. By everything, we mean all the areas in which we have been deceived to believe the physical world is the beginning and end of all things. "The Extra-Dimensionals" is the stark revelation of where Alien Visitors are actually coming from and to where they are returning. Understanding Extra-Dimensionality is the way to unfold the truth of the paranormal, the spiritual and even the physical world. These Visitors have been with us since time immemorial and their messages to us are everywhere around us. The truth will eventually explode into our field of vision. If we refuse to listen then we are only delaying the inevitable to a time when an alarm will be sounded that is so loud that it will consume everything upon the Earth. Once the black swans arrive, once we awaken to numerous mile long shadows cast by these ancient ships hanging over our major cities, soundless, motionless, maddening; it will be too late. It is in these final moments that we can still, with open minds and clear hearts, decipher that which has been intentionally hidden from humanity for so long the truth of Extra-Dimensionality. That comprehension will, in turn, illuminate every hidden truth of our material existence. Then, we will find that for the first time, we will finally have the key to understanding everything.

Customer Reviews

I really enjoyed this book. It takes a fresh look at the UFO and alien phonomenum, not as exterterrestrials, but as interdimensionals. The author did a great job! I loved reading this book but it got a little confusing in the end chapters. That is the only reason I did not give it 5 stars. It is a really good read and I highly recommend it to everyone!

What are extra-dimensional beings, are they extraterrestrial beings , or they a different subject. Why Earth is important to them. If something a portal or nexus on or near earth. Why is humanity is important to them. This book has several stories through out the years. Try to tell of their experiences ?

This book was not revelatory to me because I somehow have already sensed there is something extra-dimensional involved in the paranormal experiences we seem to hear so much about. However, the author has clearly given much thought to how this could happen (how, he is convinced, it does happen. If you are looking for 'evidence' or anecdotes, this isn't the book for you, but it does offer a thoughtful perspective on what might be going on.

The writing is not outstanding. The book needed an editor. And the author could have communicated the same ideas in half the words. But the ideas are thought-provoking, and probably mostly true. My perception of the author is that he is a good guy trying his best to figure out the high strangeness the mainstream tries to ignore. We are not alone. This book is a fun, quick read. It is not as convincing or as in-depth as other works on the subject, but a good introduction perhaps. If this book interests you, check out: 1) Monsters by John Michael Greer 2) Wonders in the Sky: Unexplained Aerial Objects from Antiquity to Modern Times by Valee 3) UFOs for the 21st Century Mind: A Fresh Guide to an Ancient Mystery by Dolan 4) Alien Agenda: Investigating the Extraterrestrial Presence Among Us by Marrs

A very interesting if somewhat unsubstantiated view on extradimensional contact. I suspect this author has many convert sources to back his claims. It would be more credible if more verifiable

information was provided.

Enjoyable, and worth rereading again.

A very very well put together read. Excellent information and very intriguing. Highly recommended.

As we progress to what the Awakened are now facing and what is yet to come, "The Extra-Dimensionals" by John DeSouza is the guide to read NOW! This is essential reading for the survival of the future. I am learning that my suspicions are aren't suspicious at all but FACT, and then some! This book is both enlightening and frightening; a real page-turner that grabs you from the first sentence in the author's intro and keeps escalating in its intensity of the Truth of our existence and what's at stake for all of us.
