## Customer Reviews

"Jay Lehr - Is there a need for this book? There is definitely a need for this book. Environmental Consultants and others involved in all phases of environmental assessment and remediation are always searching for the simplest and most direct man to measure the levels of concentrations of a particular contaminant in soil, air and water.; Willis Weight- is there a need or this book? It seems like a book like this would be a great help to a wide audience... Being able to turn to a single reference and find a procedure to perform an analysis for a given pollutant is appealing... There is an appeal to any professional working in the field for a reference book like this.

a present , low price and high quality. I received this product on time and in very safe packaging. Cutting a watermelon was the first opportunity to use it. It sliced through the whole melon easier than any product I've owned before. Can't beat that. I'm happy. best service. very comfortable and very fine .
