Fear No More (Ghost No More Series Book 3)

Synopsis

This is a Kindle Short Reads
At the time that I wrote Ghost No More, I just couldn't face an incident that happened in my late teens. I'm stronger now, and Fear No More is that missing section of time. This book is near and dear to my heart. One night changed CeeCee's life forever.
At only seventeen, CeeCee is out on the streets. For her, it is all about finding a place to sleep and something to eat. Yet, just when staying alive can't get any harder, she meets someone worse off than herself. The last thing she needs is to get involved in someone else's troubles, but even though she wants to, she can't just walk away - or can she?
"This memoir brings the reader into the light, and a hard-fought optimism. It is a story that is already changing lives."
Well worth the read and absolutely unforgettable."
Wonderfully written! I recommend this book to other victims, to peer supporters and anyone else who is a shoulder to cry on for someone."-- reviewers

Customer Reviews

CeeCee James draws you into her collapsing teenage world through her candid thoughts, the vivid imagery, metaphor and dialogue; the reader is right there with her. It is heartbreakingly ironic that she has learned to make herself unseen for most of her life in order to survive, and yet, in one unforgettable scene in clear view of others, it is then that she truly becomes "unseen." She is propelled to this point by a lack of alternative choices, and each one takes her further into deeper fear and isolation. In turns, CeeCee reveals her vulnerability and inner strength as she copes the best she can in her circumstances. Flashes of her values--wanting to do well in school, acknowledging kindness, offering compassion--can be seen throughout her story. I'm touched deeply by her voice. I imagine writing this memoir both haunted and healed. I'm reminded that silence is dispelled by speaking and darkness is dispelled by light. This memoir brings the reader into the light, and a hard-fought optimism. It is a story that is already changing lives.

Once again Ceecee James has been able share her memories in a way that makes you feel like you were that teenage girl and these are your own memories. She is a very gifted writer and as hard as her memoirs can be to read sometimes, I'm glad she's sharing. I think it's important for abuse survivors to know they're not alone and for those of us who have been fortunate enough to have never suffered abuse, I think it's equally as important to understand it because whether we're aware of it or not, we all know victims of abuse.

The main act of this short and sweet but oh so deep novella takes place over a single night. The streets are for a scary place a young girl. Everybody wants something, but no one truly cares. What's a girl to do when there's nowhere to run or hide? You will be dragged in to this harrowing story from page 1 and find out the answer first hand. When it finally let's you go for a gentle and slightly expected ending, the powerful emotions invoked will linger for hours if not days. Well worth the read and absolutely unforgettable.

CeeCee James is masterful once again. In the moving *Fear No More*, she completes her trilogy of the recount of her ascent from the shadow of abuse and despair. Her early life reads like a horror novel, but sadly it isn't. That she has emerged into the light and into the happiness everyone deserves is a credit to her resolve and spirit. That she chose to share her life with us is a gift. Beautifully constructed as I've come to expect from CeeCee, *Fear No More* is a fast and engrossing read, depicting the last straw in her life in her birth home. I heartily recommend this book.

I absolutely loved reading this book and am sharing it with others. As a victim of abuse in my childhood, and a Certified Peer Supporter now- the book took me in and held it in it's grip till the end of the story. You want to fight for her and give her the hope she needs to get out of the situation. Wonderfully written! I recommend this book to other victims, to peer supporters and anyone else who is a shoulder to cry on for someone.

While this novella is technically a standalone work, it's really a more detailed explanation of a time in James' life which is covered by a mere paragraph in her first book, Ghost No More. As James explains, at the time she wrote that book, the period in her late teens where she was homeless after her abusive mother threw her out of the house was simply too painful to contemplate at the time. In James' eloquent yet relatable way, she tells of her struggles both physically and emotionally, trying to juggle work, school and finding a safe place to sleep at night. Even more, James struggles with the guilt that she somehow "deserves" what happened...a feeling that would take years to overcome.

I liked this book....read it in 2 days!!!

I skipped 2/3s of the book because it was word for word the first book . A lot of therapy that did not add to the story.
