Artistry In Fiber, Vol. 2: Sculpture

Synopsis

Nearly 500 photos of artwork with personal insights from 76 of today's most noteworthy artists show the tremendously broad range of possibilities that working in three dimensions can offer. In conjunction with the other two books in this acclaimed series, it invites readers to re-examine fiber art through a multifaceted contemporary lens. Both established artists and emerging artists whose work is attracting notice are gathered here. Carol Milne's knitted glass and Peter Gentenaar's technique of vacuum forming and air-drying paper fibers are but a few examples of artists using new materials with traditional methods.

As research director at Vose Galleries, Anne Lee wrote and designed numerous exhibit catalogs. E. Ashley Rooney is the author of over twenty books on contemporary art.

Beautiful book.

A beautiful, thoughtful and informative book. Fiber art is a world unto itself, with wide ranging use of materials and purposes, and a long history that goes back deep into our past. Artistry in Fiber Sculpture honors all of this, and as one of the artists included, I couldn't be more impressed by the range and skill of the work inside, or more honored to be part of it. Anne Lee and E. Ashley Rooney have done the fiber art world proud.

A beautifully presented book... I am so proud to have been included in this collection of talented & inspirational Artists...'Artistry in Fiber, Vol. 2: Sculpture' is a book that will fascinate & enthuse anyone remotely interested in the fibre arts...

This is a fabulously beautiful book, filled with images that will delight and inspire!! am very proud to be one of the artists included!
