I did not think that this book was detailed enough to ensure that you would achieve a good result. It contained a lot of information, quotes from celebrities and other famous persons, for example, that were a waste of book space. I would have preferred to have purchased a book that presented haircut techniques on a more detailed and serious level.

Please do not waste your money on this book. It is awful. I should have listened to the other reviews. It does not help at all in cutting hair. No clear cut instructions. One is pull your hair up in a pony tail and cut. Please do not waste your money.

Very helpful.

I loved the book!!! I cut my husband's hair and it looked great. Well worth the money I spent !

This book wasn't what I expected but it is good for learning to cut your hair or anyone's. I don't know what I expected. It's decent though. It stands up on its own so you can see the book while you cut.

Good and easy descriptions, a few standard haircuts, but not very elaborate. A good first book about cutting hair.

Book sets up so it is easy to read while you cut. Very basic Could use more medium length hair cuts

Arrived in excellent condition. Could not be more pleased!
