Cute. Shipping fast than expected. Excellent

I love it

Combining selections from five out-of-print Dover collections, this book provides a true zoo's worth--439 pen-and-ink sketches by Bob Giuliani--of animals both wild and tame, four-legged, two-legged, and no-legged. Beginning with a section of pets and other domestic creatures--cats and dogs, cattle and horses, a goat, a gerbil, a guinea pig--it goes on to marine dwellers ranging from oysters and sea anemones to elephant seals and sperm whales, and devotes its last half to wild things running the gamut from bears and elephants to tarantulas. As with all this series, the enclosed CD-ROM is equipped with Dover's Design Manager to help you crop, rotate, and print the

images.

This is exactly what I was looking for. I have always loved animals and this will be perfect for what I want to do.
