Package Dimensions: 8.5 x 5.8 x 1.1 inches

Shipping Weight: 1 pounds

Average Customer Review: 2.0 out of 5 stars 4 customer reviews

Best Sellers Rank: #1,060,592 in Books (See Top 100 in Books) #61 in [Books > Christian Books & Bibles > Christian Denominations & Sects > Protestantism > Theology](#) #294 in [Books > Christian Books & Bibles > Christian Denominations & Sects > Protestantism > Methodist](#) #19867 in [Books > Christian Books & Bibles > Theology](#)

Customer Reviews

Volumes one and Two

The picture on this Theology shows the two volumes that comprise it. The description mentions the two volumes. I received only one volume. Another reviewer on this book received only Vol 2. The set had been broken and we the two purchasers have been misled. Lack of product knowledge? Intentional misleading? Or just lack of competence? Bad news for me and the other purchaser. How to remedy? Who knows!

All my mistake I did not specify I wanted volume two. I now have three volume one. I am only new to ordering books. I want to order two of number two from set but am having difficulties. Will try again in new year.

The description and the picture give the idea that two books come with the order. This was not the case. I only received volume two of this book order. As far as the information, I have read at least ten different systematic theology books. This one is lacking on the information side.

This is a two-volume set. It is a shame the earlier reviewer received only 1 volume. I would call this set an introduction to systematic theology. Various educators from Wesleyan Arminian denominations contributed to this work. It has been about 20 years since I went through this set. Personally, I prefer John Miley's 2 volume set from the 1800s, especially the section on the Atonement, as well as Church of the Nazarene theologian H Orton Wiley's multi-volume Systematic Theology. I remember that I liked the essays in the books, but I never had occasion to use the books again after the first reading. This set has long been out of print. For those students who like large libraries, this set may be useful. However, if one will only be using one systematic theology, Miley or Wiley, who I have on my shelf, or perhaps even Oden - whose books I've never read but have had recommended to me - would number among better choices. Since I did like most the essays, as far as that goes, I gave the set 4 stars instead of 3 stars.
