The Full Monte: A Fulbright Scholar's Humorous And Heart-Warming Experience In Montenegro

Synopsis

The U.S. State Department's prestigious Fulbright Scholar Program places American professors in other countries for an extended period to teach and experience other cultures. Never has anyone enjoyed it more or provided such an entertaining insight into the program. Paul Dishman provides a revealing view into Montenegro, the tiny former Communist country struggling to join the world stage. The experience turns into a personal journey as he travels to the land of his grandfather and discovers his own surprising heritage. It is part travelogue, part history, part heartwarming personal journey, and all delightfully droll.

Customer Reviews

Dr. Dishman writes a great first-person travel memoir. Must be a very witty guy in person because his wry observations permeate the book. Makes me want to visit Montenegro!

Great book, funny and interesting view on Montenegro.

A great read! If you haven't been to the region and want to get a taste for life in the Balkans - especially through the keen eye of a native Texan, this is the best way to do it. Hilarious and informative. I highly recommend the book and travel to Montenegro.

While the author may be a college professor, Phd, and a Fulbright Scholar - he is no stuffed shirt. This book is just full of humor, is easy to read and leaves the reader with a real insight into this little known country. Buy this book - you will not be dissapointed!
