A thought-provoking reexamination of the age-old grace vs. works issue with a fresh contemporary spin. -- Christian Retailing, October 6, 2003 This interesting, in-depth title...[will] interest Christian leaders and those caught in a performance trap. -- CBA Marketplace, September 2003 --This text refers to an out of print or unavailable edition of this title.

"The day of self-righteous, religious performing for cheap applause is coming to an end." TrueFaced draws a clear distinction between two very different underlying motives: my determination to please God or to trust Him. The resulting difference from these two starting points could not be more profound. One results in a striving that never feels it has done enough to please Him. The other results in a trust that experiences His full pleasure. Our motives as followers of Christ will either keep us in unresolved sin and immaturity or free us into God's astonishing dream for our life. [PUT IN BURST] Use with the TrueFaced Experience Guide and DVD. "In a world where duplicity is rampant, to live with 'unveiled faces' is a great gift and is the noble dream behind TrueFaced." --John Ortberg, author of Everybody's Normal Till You Get to Know Them "TrueFaced describes the

kind of life I aspire to live--a life motivated by trusting God and others around me." --Joseph Stowell, president, Moody Bible Institute "One of the best books on practical theology I have seen." --Dallas Willard professor; author of Renovation of the Heart

This book explores the subject of wearing masks and the negative impact it has on individuals and the Christian Community ... written in a very conversational and inviting manner ... are you in the Room of Good Intentions or the Room of Grace? Are you hiding behind a mask (or masks) or are you living in the peace and joy of authenticity? The authors will make the case for turning the door knob of humility to enter the Room of Grace and how the life in that room is so very different than the Room of Good Intentions ... this is not just a "feel good" book ... practical and insightful information about the freedom that comes from taking off the masks and experiencing a real and vibrant Christian life. They will explain the road blocks and fears that keep people in the Room of Good Intentions and how to deal with those obstacles on the way to the Room of Grace which is full of "Broken Healers". Discover the beautiful gifts from the Lord awaiting you as you dismantle the masks and lay them aside for good. Recommended.

I actually did not receive the order, I would like to know how it was cancelled and order again. I have read the book and that is why I wanted to purchase more. I have given several copies to friends, hoping they would actually read this. If you are a follower of Jesus Christ this is a must read. There are truths in here that most people do not understand or believe for some reason. Stop trying to please God, it really is about the grace and truth God says and has done for us. This book will set many people free from the small thinking that MOST of the time we view God in or as.... Read it!

Lets not just say God bless you and yes, thanks for asking how I am doing; I am just fine which as you know is a un-truth. This book has to do with setting the masks down and really being a real person, a truthful person, an honest person, a real person-a Christian.

Bought this for my husband who went through this book with a small group of men and their pastor. He could not say enough about how it was benefiting him and he even shared with our home group several times out of it. I am reading it now too and it seems to be a great addition for anyone wanting to learn how to live an authentic life and relationship with God.

This is a fantastic book written in a compassionately artistic way. I found myself wanting to dig out

my counseling books to relive passages of unconditional love for clients that transforms destructive behavior while also wanting to read anew Lewis' Till We Have Faces. After just teaching To Kill a Mockingbird for this year, many elements inspired me to piece together thematic elements of grace, compassion, courage and love as well. In response to the person who reviewed that this was "nothing new", I respond by stating that though the literal writing and response to grace "isn't new", grace is always new, transforming, and differently unique in the life of the believer, and these authors portray it well. This book made me deeply cry and praise God throughout it for the redemption of His unfailing love, grace, and power. Isn't that really the point anyway?

I like the book, excellent book. What I didn't like is what I paid for them and on the inside cover was written in pencil. \$4.00. Surely disappointed in that fact. But good book.

Powerful book with real thought, heart, and truth. People who love people, those who perform to please others and God, and weary travelers on life's road will find truth and treasure in this honest, enlightening work. Couldn't put it down yet had to read some sentences over because they sounded so good AND rang true in life and experience. Great and gripping book... but don't take my word for it. Check it out yourself!

It took me a awhile to finish because I cried every time I picked it up. Very insightful & thought provoking. Great stuff. Only issue was with some of their thoughts on forgiveness in the end.
