Diana Kendall received a Ph.D. from the University of Texas at Austin, where she was invited to membership in Phi Kappa Phi Honor Society. Ã Â Her areas of specialization and primary research interests are sociological theory, race/class/gender studies, and the sociology of medicine. Her articles and presented papers primarily focus on the scholarship of teaching and on an examination of U.S. women of the upper classes across racial and ethnic groups. Ã Â In addition to Social Problems in a Diverse Society, she is the author of The Power of Good Deeds: Privileged Women and the Social Reproduction of the Upper Class (Rowman & Littlefield, 2002) and Framing Class: Media Representations of Wealth and Poverty in America (Rowman & Littlefield, 2005). Ã Â Diana Kendall is currentlyÃ Â Professor of Sociology at Baylor University, where she has taught a variety of courses, including Introduction to Sociology, Sociological Theory (undergraduate and graduate), Sociology of Medicine, and Race, Class, and Gender. Previously, she enjoyed many years of teaching sociology and serving as chair of the Social and Behavioral Science Division at Austin Community College. Professor Kendall is actively involved in national and regional sociological associations, including the American Sociological Association, Sociologists for Women in Society, the Society for the Study of Social Problems, the Southern Sociological Society, and the Southwestern Sociological Association.

I hate the topic, but its a great book for my college course I took. I learned a lot, and the book came in good condition.

I felt this book was okay to use for an online course.

Good condition

first time I was ever disappointed with a book rental. This book was in horrible shape, spine coming apart and smelled like a cat used it for a toilet.

An actual book was not available to me and I had to buy it on Kindle. I would have preferred an

actual book but the Kindle once I got used to all that it can do and sometimes does on its own it works okay.

An excellent text for introducing students to contemporary social problems in an inclusive manner, exploring not only the broad context of social problems but also introducing students to the impact of gender, race, class, and sexual orientation on the ways that social problems are experienced nationally and internationally and the interconnectedness of these variables on those experiences. Highly recommend.

It was ok. There were too many close ended thinking in this book, when there are many natural life resources that were underused that could be included in this book. (example: Faith, meditation, love,...) Gill

This was on the required list for a class that I took. Guess how many times I used it? None.
